EXPERIENCE

Cognizant Technology Solutions

Jan 2026 – Present

Full Stack Developer Intern

Chennai, Tamil Nadu

- Building SwiftPay, an international remittance platform supporting 3+ currency corridors across 4+ independently deployed Docker microservices, handling multi-currency transaction processing at scale
- Engineered 15+ RESTful API endpoints using ASP.NET Core and Entity Framework Core with JWT authentication and RBAC, securing 100% of financial transaction routes
- Built a React.js frontend with 10+ reusable components and real-time payment status tracking, reducing user transaction steps from 7+ to under 3
- Configured Azure DevOps CI/CD pipelines across staging and production environments, cutting manual deployment effort by 60% via Azure App Services
- Collaborated in daily Agile standups and bi-weekly code reviews, maintaining consistent code quality standards across 4+ microservices

PROJECTS

Hostel Hub | *React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer*

Aug 2024 – Oct 2024

- Architected a hostel management system from requirements to deployment in under 3 months, handling data for 500+ students
- Integrated role-based access control with three distinct tiers, safeguarding sensitive student and admin data across 20+ API endpoints and preventing unauthorized data access attempts
- Automated email notifications via Nodemailer, reducing admin response time by 60%; optimized MongoDB indexes to achieve sub-100ms query latency

AI-Powered Content Automation Platform | *Laravel, Node.js, React.js, MySQL, LLMs*

Dec 2024 – Jan 2025

- Created a 3-service content platform (ingestion, processing, publishing) using Laravel, Node.js, and React.js, processing 5+ blog articles per automated run
- Parsed top 2 Google-ranking competitor pages per topic to generate SEO-optimized drafts via LLM, cutting manual content production time by 70%
- Developed a React.js editorial dashboard with 2 review views, reducing manual QA cycles from 3 rounds to 1 per publication batch
