Tools & Practices: Git, GitHub, Postman, Agile/Scrum, SDLC, Unit Testing, API Documentation, Performance Optimization

EXPERIENCE

Cognizant Technology Solutions

Chennai, Tamil Nadu

Full Stack Developer Intern

Jan. 2026 – Present

- Building SwiftPay, an international remittance platform supporting 3+ currency corridors across 4+ independently deployed Docker microservices, handling multi-currency transaction processing at scale.
- Engineered 15+ RESTful API endpoints using ASP.NET Core and Entity Framework Core with JWT authentication and Role-Based Access Control (RBAC), securing 100% of financial transaction routes.
- Built a responsive React.js frontend with 10+ reusable components and real-time payment status tracking, reducing user transaction steps from 7+ to under 3 and improving completion rates.
- Configured Azure DevOps CI/CD pipelines across staging and production environments, cutting manual deployment effort by 60% via automated builds, tests, and releases on Azure App Services.
- Collaborated in daily Agile standups, sprint planning, and bi-weekly code reviews; authored unit tests and API documentation maintaining quality across 4+ microservices.

PROJECTS

Hostel Hub | React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer

Aug. 2024 – Oct. 2024

- Architected and deployed a full-stack hostel management system end-to-end in under 3 months, serving 500+ students with secure data handling.
- Implemented Role-Based Access Control with 3 user tiers across 20+ API endpoints, preventing unauthorized access to sensitive student and admin data.
- Automated email notifications via Nodemailer reducing admin response time by 60%; optimized MongoDB indexes to achieve sub-100ms query latency.

AI-Powered Content Automation Platform | Laravel, Node.js, React.js, MySQL, LLMs

Dec. 2024 – Jan. 2025

- Designed a 3-service microservices content platform (ingestion, processing, publishing) using Laravel, Node.js, and React.js, processing 5+ blog articles per automated run.
- Integrated LLM APIs to parse top Google-ranking competitor pages and generate SEO-optimized drafts, cutting manual content production time by 70%.
- Developed a React.js editorial dashboard with 2 review views, reducing manual QA cycles from 3 rounds to 1 per publication batch.

EDUCATION

Chitkara University

Rajpura, Punjab

Bachelor of Engineering in Computer Science and Engineering; CGPA: 8.07/10.0

Aug. 2022 – May 2026

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming: Solved 400+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks; earned 100 Days Badge on LeetCode.

Certifications: Meta Social Media Marketing (Coursera); AI Foundations for Everyone (IBM, Coursera).
